World Prep® Partners With Non-Profits To Provide Personal Hygiene Kits For Japan

[World Prep, Inc.](#), a Toledo, Ohio based safety and preparedness company partnered in 2010 with LOTT Industries, a 501©3 in Toledo, Ohio, to assemble their kits. For more than 50 years, Lott has provided employment opportunities to adults with developmental disabilities in Northwest Ohio. To learn more about Lott Industries click [here](#).

World Prep (founded in 1999), with ISOH/IMPACT (International Services Of Hope, Perrysburg/Waterville, Ohio) have launched a campaign to offer their hygiene kits for \$15.00 for shipment to Japan. World Prep will donate 10% of each purchase to ISOH, which provides domestic and international relief, for areas affected by man-made and natural disasters.

Currently, there are more than 400,000 persons displaced to shelters in Japan and those numbers continue to grow. The needs for proper hygiene are quickly becoming a great concern. World Prep® initially developed this product for the United States military in 2003 and then customized these for disaster response in 2005. World Prep ships their products globally and provides 45 different types of safety and preparedness products in nine different markets.
